Weekend Races - Shallow waters in the East Siberian Sea : Hello Pioneers, Here are this weekend's races! Remember, if you dont want to sail alone, you can look for a crew in the Multiplayer Forum , there are plenty of sailors looking for crew members or boats to sail with.. Sailaway Update V.0.9.021 - A quick hot fix : Hello Pioneers, Following yesterdays update , heres a small update to fix some issues not quite fixed in the last update plus some new additions.. Sailaway v1.1.03 : Hello Pioneers! We have a new update for you all. Plenty of fixes and improvements here for you to jump on board with! When the boat runs aground, it was teleported to some nearby position with sufficient depths that the server located for you. Now the boat keeps track of its own positions and when you press "help me please" after you've run aground, the boat is teleported back in its footsteps. When the camera was in orbit mode, changing the angle to look up from below the waves would not only limit the camera to stay above the water, but also move the camera closer without zooming in. This is now fixed so the camera stays above the waves but the distance to the boat doesn't change. When the camera is in orbit mode, the focus point can now be moved with the WASD/arrow keys and by dragging the mouse while holding down the right mouse button. When the camera is moved away from the boat, it will be detached from the boat and can then move around freely. The World edits are ordered on publication date so that the terrain heights from the latest edit will overrule earlier edits for the same region. Only published World edits are now applied. In the previous version published Word edits by other users + all your own world edits were applied, but this was confusing. The 2 featured races that are shown in the main menu, will now also contain user-organized races. Tall buildings were rendered behind the sky layer There were background processes that downloaded detailed maps, while they could use an already downloaded low resolution map instead.. Sailaway Update 1.0.13 - Hotfix 1 : Hey Pioneers! Just a quick update to fix a couple of small issues on the new hydrofoil 32' Offshore Racer. Full patch notes: Clicking both ends of the main sheet on the hydrofoil 32' Offshore Racer will now have the same effect.. Sailaway Update v1.1.0 - Help shape the Sailaway world! : Hey Pioneers, Get ready to set sail and create your own exciting new environments. Richard has been hard at work on a new tool for Sailaway that will allow players to help refine the details of the Sailaway world. He wrote about some of these challenges in more detail here: Todays update marks the initial release of this World Editing tool which can be downloaded by any current Sailaway owner via this page: This tool not only allows players to edit height map data for the game but it also allows new models to be added to the world for players to enjoy. Richard has written a blog about how the tool works here: Update v1.1.0 Notes Sailaway World Editor is released. Allows user created world edits and additions to be shared with all sailors. Improved the shader used for terrain. Maximum map resolution is now 4x as detailed as it was. Fixed a bug that stopped nautical lights from being visible at longer distances. Fixed a bug in sector lights. Please note: All edits you make to the Sailaway world affect all players, if accounts are found to be abusing this editor they will be blocked from using it in the future. If you encounter any issues with this new editor please do let us know on supportsailwaysimulator.com so we can get them addressed, this tool will get improved with feedback and time. We look forward to seeing the refinements players make to the world for everyone to enjoy.. Weekend Races - The Howth Regatta Long Race : Hello Pioneers! Here are this weekend's races! These races will appear in the main menu when you launch Sailaway. We're delighted to announce that this week's Long Race is the Howth Regatta Long Race which is taking place this weekend in the Irish Sea. The Howth Yacht Club [hyc.ie] have also been kind enough to let us use their official logo as the completion badge for this race! Remember, if you dont want to sail alone, you can look for a crew in the Multiplayer Forum , there are plenty of sailors looking for crew members or boats to sail with.. Community Races - Mini Fastnet by Sailaway Communaute Francophone : Bonjour Pioneers, The French Sailaway community have been very busy and have organised a gruelling 6-day solo race kicking off this Sunday! This is a solo-only race using the Mini Transat. To take part, players will need to register with Sailaway Communaute Francophone via their site and join their discord group instructions of how to do so and more about this race can be found here [communaute-fr-sail.forumactif.com] .
